

REMARKS

This is a full and timely response to the outstanding Office Action mailed November 2, 2005. Reconsideration and allowance of the Application and presently pending claims are respectfully requested.

I. **Response to Notice of Non-Responsive Reply**

The Examiner stated in the present Office Action that the Reply filed on October 24, 2005 is not fully responsive because the Specification contains drawings and flow diagrams. Applicants have amended the Specification and made it into acceptable format. The drawings and flow diagrams have been deleted from the Exhibits and submitted as Figs. 9-208. A brief description has been provided for each drawing and is placed on Page 8, line 11 below the brief description of Fig. 8. To reduce the confusion of the numerous amendments made to the "Exhibits" submitted in the Response filed on October 24, 2005, Applicants have deleted them and inserted newly-submitted "Exhibits" after Page 31 of the Specification and have pages as follows: Exhibit 1, Pages 1-52; Exhibit 2, Pages 1-471, and Exhibit 3, Pages 1-356. In addition, the newly-submitted Exhibits have been amended to include references to the Figures of the drawings and flow diagrams deleted from the Exhibits. Applicants respectfully submit that the amendments and additions add no new matter to the present application.

CONCLUSION

Favorable reconsideration of the Specification is hereby courteously requested. If, in the opinion of the Examiner, a telephonic conference would expedite the examination of this matter, the Examiner is invited to call the undersigned at (770) 933-9500.

Respectfully submitted,

Jeffrey R. Kuester
